SKU	SLE-FAT-BAKERY
Minimum order	10 kg
Price basis	kg
Supplied by	SriLankaExport.com, Harker International (Pvt) Limited
Country of origin	Sri Lanka
Issued	12 October 2026

Overview

Sri Lankan oil refiners make shortening, bakery margarine and specialty fats for bakeries and food manufacturers, using coconut oil and other vegetable oils. Hydrogenated and specialty fats exported about US\$50 million in 2025, mostly to India.

Origin

Some of these fats are made in Sri Lanka from imported oils, which can affect preferential duty under trade agreements. Tell us whether you need a Sri Lankan certificate of origin for a duty preference, and we confirm the oils used and the origin status before quoting.

Specification

Fats are specified by melting point, solid fat content, free fatty acids and their use (cake, pastry, biscuit, frying). Trans-fat content matters in many markets, and some ban partially hydrogenated oils. Tell us your use and market and we confirm the right fat.

Who buys it

Industrial bakeries, biscuit and confectionery makers, and food-service distributors. Fats are packed in lined cartons or pails and shipped by sea; in hot climates, storage temperature matters, so shelf life and storage are confirmed with the quote.

What to tell us for a quote

- The product, grade or specification you need, and a reference sample if you have one
- Quantity per order and how often you buy
- Pack size, packaging and labelling
- Destination port and the Incoterm you prefer
- Documents your market requires, such as a certificate of origin, phytosanitary certificate or lab test reports

Packing and shipping

Orders are packed to your instruction and shipped by sea in a full or shared container, or by air for samples and small lots, quoted FOB Colombo, CFR or CIF to your port. Products from several Sri Lankan suppliers can share one container through our consolidation service.

How to get a price: tell us the quantity, your specification and your destination port. We quote FOB Colombo, CFR or

CIF, with lead time and minimum order, and arrange samples before an order.

Typical specification

Shelf life	12 months from production, unopened, stored as advised
Appearance & organoleptic	White to off-white plastic fat, smooth texture, neutral odour and taste; free fatty acids ≤ 0.1% as lauric; peroxide value ≤ 1 meq O2/kg at packing; melting point and solid fat profile as specified (CXS 19, CXS 210)
Ingredients	Refined vegetable fats and oils (coconut and others as specified), may contain emulsifiers (E471) and antioxidants as permitted
Allergens	Coconut (declared as a tree nut in some markets)
Storage & handling	Cool store below 25 °C, away from heat, light and odours; avoid repeated melting and resetting

Typical specification for this grade, not a test result for the lot you will receive. We agree the final specification with your order and supply a certificate of analysis for your lot on request.

Issued by our Trade Desk in Colombo on the date shown. Figures are indicative, not a firm offer. For a firm price against your quantity, destination and Incoterm, request a quote and we reply with a costed position.
