Overview

Orthodox Ceylon black tea in the larger leaf grades: OP, OPA, Pekoe and FBOP. Leaf grades brew a lighter, more fragrant cup than broken grades and are used for loose-leaf retail and blending.

Final specification is agreed against a sample. Minimum order 1,000 kg per grade. Price on request through the SriLankaExport trade desk.

Reading the grades

- **OP** (Orange Pekoe): long, wiry leaf
- **OPA**: a bolder, longer leaf than OP
- **Pekoe**: shorter, curled leaf
- **FBOP** (Flowery Broken Orange Pekoe): a broken leaf that can carry tips

What to tell us for a quote

- Grade and quantity per grade
- Cup profile or a reference tea you want matched
- Packing and destination

Quality and documents

Each lot can be tested by an independent laboratory before shipment. Export documents are arranged with the shipment.

Samples

Samples are sent before an order, and lead time is confirmed with the quotation.

Tell us how the tea will be sold, loose or in bags, so the sample matches your use. Tea for blending is often matched to a standard you already buy.

Organic: ask us for the producer's organic certificate covering your lot with the quote. Certification does not transfer to the buyer: for a US import under USDA NOP, the importer of record must hold its own certification.

Issued by our Trade Desk in Colombo on the date shown. Figures are indicative, not a firm offer. Ask us for a certificate of analysis against your order. Fields marked "Not stated" are confirmed with your quote, never estimated. For a firm price against your quantity, destination and Incoterm, request a quote and we reply with a costed position.
