Country of origin	Sri Lanka
Issued	12 October 2026

Overview

Orthodox Ceylon black tea in grades OP, OPA, OP1, Pekoe, BOP, BOPF, FBOP, FBOPF and Dust. Available in bulk or packed under your own label.

Price on request through the SriLankaExport trade desk.

How the grades differ

Leaf grades such as OP, OPA and OP1 are long, wiry leaves that brew a lighter, slower cup. Pekoe is a shorter, curled leaf. Broken grades (BOP, FBOP) and fannings (BOPF, FBOPF) brew faster and darker, and suit tea bags and blends. Dust is the smallest particle and gives the quickest, strongest brew, mainly for tea bags.

What to tell us for a quote

- Grades and quantity per grade
- Bulk packing or private label, with pack sizes
- Label artwork if packing under your brand
- Destination port

Quality and documents

Each lot can be tested by an independent laboratory before shipment. Export documents are arranged with the shipment.

Samples and lead time

Samples are available before an order. Price, minimum order and lead time are confirmed with the quotation.

Organic: ask us for the producer's organic certificate covering your lot with the quote. Certification does not transfer to the buyer: for a US import under USDA NOP, the importer of record must hold its own certification.

Issued by our Trade Desk in Colombo on the date shown. Figures are indicative, not a firm offer. Ask us for a certificate of analysis against your order. Fields marked "Not stated" are confirmed with your quote, never estimated. For a firm price against your quantity, destination and Incoterm, request a quote and we reply with a costed position.
