Country of origin	Sri Lanka
Issued	13 October 2026

Overview

Ceylon cinnamon is one of the most popular single-herb supplements, and brands selling it want proof that the capsule holds true cinnamon (*Cinnamomum verum*) rather than cassia. Filling the capsules in Sri Lanka, where the cinnamon is grown and milled, keeps the origin simple to document.

What you specify

- Fill weight per capsule and capsules per bottle
- Vegetarian (HPMC) or gelatin capsules, and capsule color
- Organic or conventional cinnamon
- Bottles with your label, blister packs, or bulk capsules for you to pack

Testing and documents

The cinnamon powder can be tested for coumarin, microbiology and heavy metals, with a certificate of analysis for each lot. Ask for the capsule maker's food safety certification with the quote.

Your market's rules

Food supplements are regulated by the importing country. In the US the brand owner is responsible for supplement manufacturing rules and label wording, and in the EU and UK supplements must be notified and labelled to local rules. We supply the product and documents; health claims on the label are your decision with your own adviser.

Private label

Retail packs can carry your brand. Send us your artwork, pack size and labeling requirements for your market, and we confirm packing options, minimum order and lead time with the quote. You remain responsible for the label claims made in your market.

What to tell us for a quote

- The product, grade or specification you need, and a reference sample if you have one
- Quantity per order and how often you buy
- Pack size, packaging and labeling
- Destination port and the Incoterm you prefer
- Documents your market requires, such as a certificate of origin, phytosanitary certificate or lab test reports

Packing and shipping

Orders are packed to your instruction and shipped by sea in a full or shared container, or by air for samples and small lots, quoted FOB Colombo, CFR or CIF to your port. Products from several Sri Lankan suppliers can share one container through our consolidation service.

How to get a price: tell us the quantity, your specification and your destination port. We quote FOB Colombo, CFR or CIF, with lead time and minimum order, and arrange samples before an order.

Typical specification

Shelf life	24 months from manufacture, unopened
Moisture	≤ 10% (fill powder)
Microbiological limits	Total plate count ≤ 100,000 cfu/g; yeasts and moulds ≤ 1,000 cfu/g; E. coli absent in 1 g; Salmonella absent in 10 g
Appearance & organoleptic	Light brown Ceylon cinnamon powder fill (Cinnamomum verum, ISO 6539); coumarin typically ≤ 0.3% (distinguishes from cassia); fill weight ± 7.5% of label claim; disintegration ≤ 30 min (USP <701>); lead ≤ 3.0 mg/kg (EU 2023/915)
Ingredients	Ceylon cinnamon bark powder (Cinnamomum verum); capsule shell hypromellose (HPMC) or gelatin as specified
Allergens	Contains none of the EU or US major food allergens
Storage & handling	Cool, dry, ventilated store away from strong odours and direct sun, below 25 °C and 65% relative humidity, off the floor

Typical specification for this grade, not a test result for the lot you will receive. We agree the final specification with your order and supply a certificate of analysis for your lot on request.

Organic: ask us for the producer's organic certificate covering your lot with the quote. Certification does not transfer to the buyer: for a US import under USDA NOP, the importer of record must hold its own certification.

Issued by our Trade Desk in Colombo on the date shown. Figures are indicative, not a firm offer. For a firm price against your quantity, destination and Incoterm, request a quote and we reply with a costed position.
