Issued	9 October 2026

Overview

Cinnamon toothpicks and stirrers are thin, straight sticks cut from Ceylon cinnamon. Stirrers flavour coffee, tea, mulled wine and cocktails, and toothpicks are sold as a natural alternative to wooden picks. Ceylon cinnamon is ideal because it is mild and sweet and its quills are thin and layered.

Forms

- Toothpicks: thin sticks, often cut from the woody inner stems or tightly rolled quill
- Drink stirrers: longer quills in lengths to suit a cup or glass

Who buys it

Cafes and coffee chains, cocktail bars and hotels, gift and hamper companies, and retail brands. Send us the length and thickness you want, or a sample of the product you sell now, and we match it on the sample.

Private label

Retail packs can carry your brand. Send us your artwork, pack size and labelling requirements for your market, and we confirm packing options, minimum order and lead time with the quote. You remain responsible for the label claims made in your market.

What to tell us for a quote

- The product, grade or specification you need, and a reference sample if you have one
- Quantity per order and how often you buy
- Pack size, packaging and labelling
- Destination port and the Incoterm you prefer
- Documents your market requires, such as a certificate of origin, phytosanitary certificate or lab test reports

Packing and shipping

Orders are packed to your instruction and shipped by sea in a full or shared container, or by air for samples and small lots, quoted FOB Colombo, CFR or CIF to your port. Products from several Sri Lankan suppliers can share one container through our consolidation service.

How to get a price: tell us the quantity, your specification and your destination port. We quote FOB Colombo, CFR or

CIF, with lead time and minimum order, and arrange samples before an order.
