Product	Ceylon Clove Oil, Clove Leaf and Clove Bud Oil, Steam Distilled, Bulk Drums, GC Report per Lot, Sri Lanka
SKU	SLE-OIL-CLOVE
HS code	3301.90
Minimum order	Confirmed with quote
Price basis	kg
Supplied by	SriLankaExport.com, Harker International (Pvt) Limited
Country of origin	Sri Lanka
Issued	12 October 2026

Overview

Sri Lanka grows cloves in its mid-country spice gardens, around Kandy and Matale, and distils oil from both the leaves and the dried buds. Clove oil is valued for eugenol, its main aromatic compound, and buyers compare lots by their eugenol content as shown on a gas chromatography (GC) report.

Two oils, two prices

- **Clove leaf oil** is distilled from fallen and pruned leaves. It is the main volume grade, used where eugenol is the target, for example in fragrance, oral-care and industrial applications.
- **Clove bud oil** is distilled from the dried flower buds. It has a rounder, sweeter aroma, is produced in smaller volumes and costs more. Flavour and fine fragrance buyers usually ask for it.

We keep the two apart on every quote. Tell us which one you need, or the eugenol range you want, and we match the lot to it.

What comes with each lot

Every lot is quoted with its GC report. Specific gravity, refractive index and optical rotation can be added on request, along with a safety data sheet and a certificate of analysis. Samples are sent before an order so your lab can check the oil against your specification.

Using clove oil in your market

Rules for food flavourings, cosmetics and other products differ by country. You remain responsible for the claims and labelling of the finished product you sell.

Private label

Retail packs can carry your brand. Send us your artwork, pack size and labelling requirements for your market, and we confirm packing options, minimum order and lead time with the quote. You remain responsible for the label claims made in your market.

What to tell us for a quote

- The product, grade or specification you need, and a reference sample if you have one
- Quantity per order and how often you buy
- Pack size, packaging and labelling
- Destination port and the Incoterm you prefer

- Documents your market requires, such as a certificate of origin, phytosanitary certificate or lab test reports

Packing and shipping

Orders are packed to your instruction and shipped by sea in a full or shared container, or by air for samples and small lots, quoted FOB Colombo, CFR or CIF to your port. Products from several Sri Lankan suppliers can share one container through our consolidation service.

How to get a price: tell us the quantity, your specification and your destination port. We quote FOB Colombo, CFR or CIF, with lead time and minimum order, and arrange samples before an order.

Typical specification

Shelf life	24 months from distillation, sealed, full containers
Appearance & organoleptic	Pale yellow to brown liquid, spicy clove odour; eugenol 80 to 92% (leaf oil, ISO 3141), 75 to 88% (bud oil, ISO 3142); GC report per lot
Ingredients	100% steam-distilled essential oil, no added solvents or extenders
Allergens	Contains naturally occurring fragrance allergens (eugenol, cinnamal, geraniol, citronellol, limonene as applicable) to be declared under EU cosmetics rules
Storage & handling	Sealed aluminium or lacquered drums, full, cool and dark; nitrogen blanket after part use

Typical specification for this grade, not a test result for the lot you will receive. We agree the final specification with your order and supply a certificate of analysis for your lot on request.

Issued by our Trade Desk in Colombo on the date shown. Figures are indicative, not a firm offer. For a firm price against your quantity, destination and Incoterm, request a quote and we reply with a costed position.
