HS code	4015.19
Minimum order	Confirmed with quote
Price basis	piece
Supplied by	SriLankaExport.com, Harker International (Pvt) Limited
Country of origin	Sri Lanka
Issued	12 October 2026

Overview

Sri Lanka is one of the world's main glove-making countries, and gloves are among its largest exports. Its factories make both natural latex and nitrile gloves. Nitrile is a synthetic rubber, so these gloves contain no natural latex protein, and many clinics, laboratories, food businesses and cleaning firms choose them for that reason.

What you specify

- Size range, XS to XL
- Thickness and length
- Colour, for example blue, black or white
- Quality level (AQL), for example 1.5 or 2.5
- Box count and carton count, and your own brand on the box if you want it

Standards and approvals

Medical examination gloves are a regulated product in most markets. Europe uses EN 455 and the Medical Devices Regulation, and the United States expects ASTM D6319 and FDA clearance for medical use. Gloves for chemical or food handling have their own standards, such as EN ISO 374 and food-contact rules. Tell us your market and use, and we confirm which certificates and test reports come with the lot before you order. Do not assume a glove is approved for your market until you have seen its documents.

Samples

We send sample boxes before an order so you can check fit, feel and thickness against your requirements.

Private label

Retail packs can carry your brand. Send us your artwork, pack size and labelling requirements for your market, and we confirm packing options, minimum order and lead time with the quote. You remain responsible for the label claims made in your market.

What to tell us for a quote

- The product, grade or specification you need, and a reference sample if you have one
- Quantity per order and how often you buy
- Pack size, packaging and labelling

- Destination port and the Incoterm you prefer
- Documents your market requires, such as a certificate of origin, phytosanitary certificate or lab test reports

Packing and shipping

Orders are packed to your instruction and shipped by sea in a full or shared container, or by air for samples and small lots, quoted FOB Colombo, CFR or CIF to your port. Products from several Sri Lankan suppliers can share one container through our consolidation service.

How to get a price: tell us the quantity, your specification and your destination port. We quote FOB Colombo, CFR or CIF, with lead time and minimum order, and arrange samples before an order.

Typical specification

Shelf life	5 years from date of manufacture, in original packaging
Appearance & organoleptic	Powder free, latex free nitrile, ambidextrous, beaded cuff; length ≥ 240 mm; palm thickness ≥ 0.05 mm; tensile strength ≥ 14 MPa before ageing; elongation ≥ 500%; freedom from holes AQL 1.5 (ASTM D6319, EN 455-1/-2); residual powder ≤ 2 mg/glove (ASTM D6124)
Ingredients	Acrylonitrile butadiene (nitrile) rubber; contains no natural rubber latex
Pack sizes	Boxes of 100 gloves, sizes XS to XL; bulk export cartons
Storage & handling	Cool, dry store away from direct sun, ozone sources and heat, 5 to 30 °C, in original cartons, off the floor

Typical specification for this grade, not a test result for the lot you will receive. We agree the final specification with your order and supply a certificate of analysis for your lot on request.

Issued by our Trade Desk in Colombo on the date shown. Figures are indicative, not a firm offer. For a firm price against your quantity, destination and Incoterm, request a quote and we reply with a costed position.
