Country of origin	Sri Lanka
Issued	12 October 2026

Overview

Spray dried organic coconut milk. The pantry staple in a shelf stable form. Catering and bakery size. Pack size 1 kg.

Using coconut milk powder

Coconut milk powder is reconstituted with warm water to make coconut milk or cream. The ratio of powder to water sets the richness. Kitchens use it because it stores without refrigeration until opened, and only the amount needed is mixed. Bakers add it dry to doughs, batters and fillings.

What to tell us for a quote

- Number of 1 kg packs, and packs per case
- Whether you sell to food service, bakeries or retail
- The market where the packs will be sold, so the label can be checked
- Whether you need the organic certificate copy for your buyer or customs
- Destination port

Quality and documents

Each lot can be tested by an independent laboratory before shipment. Tell us the tests your market requires. If you need a certificate of analysis, list the parameters it must show. Export documents are arranged with the shipment.

Samples and lead time

Samples are available before an order. Price, minimum order and lead time are confirmed with the quotation.

Organic: ask us for the producer's organic certificate covering your lot with the quote. Certification does not transfer to the buyer: for a US import under USDA NOP, the importer of record must hold its own certification.

Issued by our Trade Desk in Colombo on the date shown. Figures are indicative, not a firm offer. Ask us for a certificate of analysis against your order. Fields marked "Not stated" are confirmed with your quote, never estimated. For a firm price against your quantity, destination and Incoterm, request a quote and we reply with a costed position.
