Supplied by	SriLankaExport.com, Harker International (Pvt) Limited
Country of origin	Sri Lanka
Issued	12 October 2026

Overview

Weaving with palmyrah and other palm leaves is a traditional Sri Lankan craft, especially in the north and east of the island. Weavers make baskets, mats and hats. Sri Lanka exported about US\$26 million of caps and hats in 2025, including plaited palm hats.

Styles

- Wide-brim sun and beach hats
- Fedora and panama-style hats
- Garden and farm hats
- Hats with fabric bands, trims and your label

Handmade

Each hat is woven by hand, so size and weave vary slightly. Sizes are confirmed on the sample.

Import paperwork

Palm leaf is a plant material. Some countries ask for treatment or a phytosanitary certificate for dried plant goods. Check your country's rules; we supply the export documents.

Private label

Retail packs can carry your brand. Send us your artwork, pack size and labelling requirements for your market, and we confirm packing options, minimum order and lead time with the quote. You remain responsible for the label claims made in your market.

What to tell us for a quote

- The product, grade or specification you need, and a reference sample if you have one
- Quantity per order and how often you buy
- Pack size, packaging and labelling
- Destination port and the Incoterm you prefer
- Documents your market requires, such as a certificate of origin, phytosanitary certificate or lab test reports

Packing and shipping

Orders are packed to your instruction and shipped by sea in a full or shared container, or by air for samples and small lots, quoted FOB Colombo, CFR or CIF to your port. Products from several Sri Lankan suppliers can share one container through our consolidation service.

How to get a price: tell us the quantity, your specification and your destination port. We quote FOB Colombo, CFR or CIF, with lead time and minimum order, and arrange samples before an order.

Typical specification

Appearance & organoleptic	Hand-plaited palm leaf, natural or dyed; head size within $\pm$ 1 cm of stated size; brim width per style; dried and treated against mould and insects; even plait, no breaks or loose ends; colourfastness of dyed parts to light ISO 105-B02 grade $\geq$ 4
Storage & handling	Dry, ventilated store, nested or boxed to keep shape, away from damp and direct sun

Typical specification for this grade, not a test result for the lot you will receive. We agree the final specification with your order and supply a certificate of analysis for your lot on request.

Issued by our Trade Desk in Colombo on the date shown. Figures are indicative, not a firm offer. For a firm price against your quantity, destination and Incoterm, request a quote and we reply with a costed position.
