Minimum order	Confirmed with quote
Price basis	piece
Supplied by	SriLankaExport.com, Harker International (Pvt) Limited
Country of origin	Sri Lanka
Issued	12 October 2026

Overview

Cane and rattan weaving is an old village craft in Sri Lanka. Artisans split and shape the stems of climbing palms and reeds, then weave them by hand into baskets, trays, lampshades and furniture. Each piece is made by hand, so a range has the small variations buyers of natural homeware look for, and new shapes can be made to order without tooling.

What we supply

- Storage and laundry baskets, with or without lids and liners
- Serving trays, bread baskets and table mats
- Pendant and table lampshades
- Planters and plant baskets
- Small furniture: stools, side tables and shelves

Made to your design

Send a drawing, a photo or a sample. We confirm the material, dimensions, weave, colour and finish, then make a pre-production sample for your approval before the order. Retailers can mix several designs in one order, subject to a minimum per design that we confirm with the quote.

Quality and paperwork

Natural cane and rattan are plant materials, so pieces are dried and treated before packing to protect them from mould and insects in transit. Many importing countries ask for a phytosanitary or fumigation certificate for plant-based goods; tell us your destination and we arrange the documents your market requires. Woven pieces are light but bulky, so they are nested where possible to reduce freight.

Private label

Retail packs can carry your brand. Send us your artwork, pack size and labelling requirements for your market, and we confirm packing options, minimum order and lead time with the quote. You remain responsible for the label claims made in your market.

What to tell us for a quote

- The product, grade or specification you need, and a reference sample if you have one
- Quantity per order and how often you buy
- Pack size, packaging and labelling

- Destination port and the Incoterm you prefer
- Documents your market requires, such as a certificate of origin, phytosanitary certificate or lab test reports

Packing and shipping

Orders are packed to your instruction and shipped by sea in a full or shared container, or by air for samples and small lots, quoted FOB Colombo, CFR or CIF to your port. Products from several Sri Lankan suppliers can share one container through our consolidation service.

How to get a price: tell us the quantity, your specification and your destination port. We quote FOB Colombo, CFR or CIF, with lead time and minimum order, and arrange samples before an order.

Typical specification

Appearance & organoleptic	Hand-woven cane and rattan, natural or stained finish; moisture content $\leq 12\%$ at packing; treated against mould and wood-boring insects; dimensions within $\pm 5\%$ of approved sample; free of loose ends, splits and mould spots; normal handmade variation in weave and tone
Storage & handling	Dry, ventilated store below 65% relative humidity, away from direct sun and damp walls; ship with desiccant in container

Typical specification for this grade, not a test result for the lot you will receive. We agree the final specification with your order and supply a certificate of analysis for your lot on request.

Issued by our Trade Desk in Colombo on the date shown. Figures are indicative, not a firm offer. For a firm price against your quantity, destination and Incoterm, request a quote and we reply with a costed position.
