Supplied by	SriLankaExport.com, Harker International (Pvt) Limited
Country of origin	Sri Lanka
Issued	12 October 2026

Overview

Semi-husked coconuts are mature coconuts with most of the outer husk removed and a tuft left at the eye end, which protects the nut and shows that it is fresh. Removing the husk cuts the weight and volume, so far more nuts fit in a container. Grocers, food service and coconut processors in the Middle East, Europe and Asia buy them for grating, coconut milk and cooking.

Specification

- Size or weight grade per nut
- Nuts per mesh bag
- Maturity and water content
- Whether the nuts are polished or left natural

Supply and price

Coconut prices in Sri Lanka move with the harvest and the local market. We confirm availability and price for each shipment at the time of order.

Shipping

Fresh coconuts are shipped in ventilated or refrigerated containers, with a phytosanitary certificate. Transit time and storage matter, so tell us your port and how quickly the nuts are sold. Desiccated coconut, coconut milk and virgin coconut oil can travel in the same shipment if you need them.

What to tell us for a quote

- The product, grade or specification you need, and a reference sample if you have one
- Quantity per order and how often you buy
- Pack size, packaging and labeling
- Destination port and the Incoterm you prefer
- Documents your market requires, such as a certificate of origin, phytosanitary certificate or lab test reports

Packing and shipping

Orders are packed to your instruction and shipped by sea in a full or shared container, or by air for samples and small lots, quoted FOB Colombo, CFR or CIF to your port. Products from several Sri Lankan suppliers

can share one container through our consolidation service.

How to get a price: tell us the quantity, your specification and your destination port. We quote FOB Colombo, CFR or CIF, with lead time and minimum order, and arrange samples before an order.

Typical specification

Shelf life	About 6 to 8 weeks from harvest in ventilated ambient storage
Appearance & organoleptic	Mature brown coconuts, sound shell, water present when shaken, no cracks or mould; husk trimmed per order
Ingredients	Whole mature coconut (Cocos nucifera)
Allergens	Coconut (declared as a tree nut in some markets)
Storage & handling	Ventilated, shaded and dry; mesh bags; avoid stacking above 2 m

Typical specification for this grade, not a test result for the lot you will receive. We agree the final specification with your order and supply a certificate of analysis for your lot on request.

Issued by our Trade Desk in Colombo on the date shown. Figures are indicative, not a firm offer. For a firm price against your quantity, destination and Incoterm, request a quote and we reply with a costed position.
